

Urban Brits

Thursday, 04 December 2008

You wait for ages to come across a new UK gay porn site, and then 2 crop up. So after reviewing UK Cum Boys I shall now mention Urban Brits, a site with a load of video and picture content that recognises the appeal of scally lads and hoodies to wank over and that British porn can offer so much more than boring American dudes. Mind you, they get it half right, 'cos some of the lads on Urban Brits are a bit too Toni & Guy'd to be scallies; having said that, kind of hot watching the pretty lads getting fucked and fantasising about them getting shafted proper by a real scally - reckon that would make their hair stand on end without needing any gel!

Some of the lads are the bizness though and look good in scally gear, and there are some fuck videos between some real fit lads who look like proper chavs. There's a mix of fucking and solo wanking action and the image quality is good and better than I've seen on some UK porn sites. I managed to get some pics of Jak, one of the fittest lads on the site and who has appeared on Gay Scally Porn before in some other video, probably under a different name, but I can't be arsed to look back for it! Click the link for more free pics of Jak. [More free pics of Jak](#)
