

London chav gets fucked by 8 inch cock

Tuesday, 17 February 2009

I still haven't decided how fit I reckon hung scally lad Leo is. This dirty fucking chav has done 5 porn shoots for UK Scally Lads, including this new one with another returning chav, Terry, and while he's always great to watch, I find sometimes he looks hotter than other times - weirdly for a scally lad, I think he looks better without a cap.

What I do know is that he has a nice big 8 inch dick and he knows how to fuck. He seems to have turned into more of a top lately, after getting it up the bum in his first few gay sex videos, which is fine by me 'cos even though he has a nice, smooth arse, a lad with such a big cock should be the one doing the fucking - mind, his fuck buddy in this movie has a stiffy that's just as big. 15 min video + 207 pics

Older, slimmer and equally smooth Terry also has a good, firm behind and is horny for Leo's cock inside him. I like his Lacoste shirt and black tracky bottoms too.

The lads get down to some pretty sexy foreplay in their kit: tonguing and nipple play. Then it's suck time and Leo lays back, downs some Carling, sniffs his trainer and enjoys a fantastic blow job from Terry, who gobbles up Leo's cock right to the back of his throat and handles those thick, eight inches very well.

The arse stuff is pretty good too, and they both finger each other, getting right up there with the help of some spit. This loosens Terry's tight fuckhole just enough to take Leo's powertool and this London scally lad gets fucked doggy, sitting and standing up, from behind. There's some wicked, close up shots of their anal sex and of Terry's ringpiece getting rammed by Leo's big hard-on. Watch full video
