

## A well hung chav to kick off 2010

Sunday, 03 January 2010

"Fuck me!" is likely to be the first thing you say when you get a butchers at scally lad Danny's huge, uncut dick swinging between his legs after he strips naked and gets ready to wank for us.

This chav from the North East is straight (for now!) and has a bird back home, but she's given him "permission" to do a shoot for a gay porn site as long as it's solo. I reckon young Danny needs to grow a pair and tell her to fuck off so we can enjoy him in some gay scally sex action for his next video. Free Danny XXX gallery here...

This slim, fit, Northern lad starts off in sexy black Adidas tracky bottoms and Nike trainers. He downs a couple of cans and drags on a few smokes to make him feel at home and get him in the mood for a wank. Danny must be feeling well horny judging by the bulge in his tracky b's!

He starts to strip - how chav are his 'Sex Machine' pants?! - and we first get to see that massive chav cock - thick, straight, long and uncut. Danny teases the foreskin back and reveals a shiny, pink head as his dick grows even bigger.

Danny sniffs his own trainers as he wanks his long, hard shaft and this brings him closer to cumming. He gives us some great shots of his furry, pink butthole before shooting a load that will leave you hungry for more of this fit, horny, spunk-filled lad. I really hope this is just the start of his gay porn career.
