

Lots of scally at Reloaded Boys

Tuesday, 20 March 2007

It's always great to find a new scally porn site, especially one with lads I haven't cum across yet, so I was in wank heaven when I checked out Reloaded Boys. This site has been quietly getting on with the business of bringing us scally lovers what we want and persuading boys from the council estate to strip off and star in gay porn.

The gay porn at Reloaded Boys is listed by model and you get both pictures and video (Windows Media format). There are loads of huge, high quality, exclusive images for each lad, taken during the video shoots, so you can get in real close to those scally cocks, and the movies can be watched at full-length or as handy, shorter clips.

The site shows both solo wanking and gay sex, and features some fit scallys stripping naked and performing - it even helpfully tells you if the lads are gay or straight.

A really cool feature is a featured HQ downloadable porn video every fortnight, so you can watch your favourite lads in DVD quality. You can also get your hands on gay porn from third party sites, provided through Reloaded Boys. Even non-members are given access to full size photos of each lad stripping and video clips, so I'd recommend checking this site out; I'll definately be cuming back for more. Visit Reloadedboys.co.uk
