

UK Scally Lads

Tuesday, 02 October 2007

Finally the porn industry is waking up to just how many scally lovers there are out there, and are giving the public what we want: 100% real chav lads fucking themselves and each other! (We all know they do it behind closed doors anyway) And, at last, there's ukscallylads.com, a site dedicated to giving us nothing but scally lads in kit, scally lads naked, scally lads sniffing, kissing, rimming, sucking, fucking, and fingering; scally solos and scally duos; even scallies with dildos!! Nothing butt scallys

I've checked it out - all in a day's work - and these lads are propa chav: white CKs, adidas trackys, reebok classics, caps, tats, bling, big dicks, England tops and loads of cum...

The site has tonnes of pics and videos - they've only just started and already have 30+ models at last count. Check out the free movies - you get to see quite a bit - including nice bit of trainer sniffing by scally with massive cock. Here's some images from the site...

All the content on ukscallylads.com is original and exclusive - all the videos are long enough for a good wank (10-25 mins) and the photos are good quality and not just screen caps.

A nice touch is being able to rate the models, so you can quickly see who the favourites are. The site is updated at least twice a week, and all the videos are downloadable to your iPod, so you can watch a bit of scally sex on the move. Visit ukscallylads.com
